For the Pacific News:

"Honor to whom honor is due," is  
a good old tributary axiom to honest  
worth; but we are unable to see why  
a new street of this great metropolis  
of the Pacific should be named after a  
deceased mulatto, whose only merit,  
after all, to the remembrance of any  
body, was his insolency at the time  
of death. To be sure, his effects be-  
came valuable, accidentally, some  
time afterwards, and made his negro  
mother well-off and others well-to-do,  
but then we see no reason why his  
memory should be perpetuated along  
with the heroes and advocates of Cal-  
ifornia—Clay, Dupont, Montgomery,  
Kearny, and others, by naming a  
thoroughfare after him. If it be ne-  
cessary to *gratitude* that the event of  
Leidsdorf's death should be perpetu-  
ated, let us have the maternal name  
—go it on Sparks, Africa, or St. Croix.

FURTHER FROM EL DORADO AND  
THE INDIANS.

We have, through the politeness  
of a friend, been put in possession of  
a short history of the Indian difficul-  
ties, together with the latest news  
from the scene of disturbances. We  
give a brief account as follows.

It seems that, not long since, the  
Indians opened the hostilities, about  
fifteen miles from Placerville, by  
murdering three miners and running  
miners from Matheny's Creek into  
Weberville. About twenty-five miles  
to the east of Placerville, they also  
murdered a number of persons,  
wounding others who came into  
town. It was also ascertained that  
they were leaving their villages, and  
collecting together in large bodies.  
Orders also came from them to the  
inhabitants of Weberville, and the  
miners of the Matheny's Creek, to  
leave forthwith. These things im-  
posed upon the community of El Do-  
rado county the necessity of taking  
prompt steps in the premises.

We have already given the ac-  
counts of the meetings that were  
held in the several towns.

The result was that two hundred  
men enrolled themselves to repel the  
Indians and keep the immigrant trail  
open. In our last number we gave  
a list of the officers they elected;  
William Rogers having been chosen  
Colonel; L. H. McKinney, Lieut.  
Colonel; J. C. Johnson, Adjutant;  
John Brown, Commissary; J. L.  
Slaughter, Surgeon; B. F. Ankeny,  
Quarter Master.

The following gentlemen volun-  
teered from Placerville:

W. B. Wordy, William Giles, J.  
R. Roben, G. W. Berry, Rollin Al-  
berry, Morris Melton, James Fork,  
Caleb Finch, William Moore, Reuel  
McLeaud, Jno. B. Delaney, Augus-  
tus Bertram, Daniel Eldridge, Peter  
Wooden, James Gilmore, Joseph  
Saunders, Nathan M. Keatinger, John  
Miller, Andrew Delano, Scipio R.  
George, H. B. Brant, J. M. Reed,  
G. H. W. Crockett, Jno. W. Hatt,  
Hiram Rollins, T. W. Toole, G. R.  
Scroggs, James Payton, G. W. Glass,  
Wiley Hammonds, Jas. Vohm, Jas.  
Frierson, John B. Whittley, R. M.  
McCuistion, C. C. Ballmans, William  
Robbin, J. R. Queareau, D. D. Mc-  
Elroy, J. C. Johnson, Felix Lord, J.  
O'Brien, Wm. Ford, Wm. Alexander,  
William Gardner, A. H. Gates, Aus-  
tin Wilkins, J. L. Slaughter, Wm. J.  
Kelley, John Poin Dexter, Lorren  
Ketchum, H. B. Brock, D. C. De-  
camp.

The forces, who are well equip-  
ped, were at the last accounts which  
we have received, encamped about  
twenty miles east of Placerville, on  
the emigrant road. On the 30th  
thirteen days provisions were sent out  
to them. And on the 28th, our last  
date, a scouting party of seventeen,  
headed by Col. McKinney, were at-  
tacked by a party of Indians. The  
whites did not lose a man.

It is suggested by persons from El

Dorado—and if the fears entertained  
there, of continued hostilities, are well  
founded, we should deem the sugges-  
tion a good one—that a block-house  
be built, say twenty-five miles east of  
Placerville, on the emigrant route, at  
Cold Springs, to be used as head  
quarters for a force adequate to the  
emergency, until the season is over  
in which the Indians carry on their  
warfare.

We are informed by letter, that at  
first many thought the reports were  
false, and consequently, that the vol-  
unteers turned out rather reluctan-  
tly; but now applications are fre-  
quent from individuals, either to join  
the army, furnish provisions, teams,  
or any thing that may be necessary.

**Self-Made Men.**—Columbus was  
a weaver; Franklin a journeyman  
printer; Sextus V. was employed in  
herding swine; Ferguson and Burns  
were plowmen; Asop was a slave;  
Hogarth an engraver on pewter pots;  
Ben Jouson was a bricklayer; Por-  
son was the son of a parish clerk;  
Akenside was the son of a butcher,  
and so was Wolsey; Cervantes was  
a common soldier; Halley was the  
son of a soap boiler; Arkwright was  
a baker; Belzoni, the son of a bar-  
ber; Blackstone and Southey were  
the sons of linen drapers; Crabbe,  
a fisherman's son; Keats the son of  
a livery stable keeper; Buchanan was  
a farmer; Canova the son of a ma-  
son; Capt. Cook began his career as  
a boy; Hayden was the son of a  
wheelwright; and Hogg was a sheep-  
herd.

The man who once becomes a  
journalist must almost bid farewell to  
mental rest or mental leisure. If he  
fulfills his duties truthfully, his atten-  
tion must be ever awake to what is  
passing in the world, and his whole  
mind must be devoted to the instant  
examination, and discussion, and re-  
cord of current events. He has little  
time for literary idleness, with such  
labor on his shoulders. He has no  
days to spend on catalogues, or in  
dreamy, discursive, researches in pub-  
lic libraries. He has no months to  
devote to the exhaustion of any one  
theme. What he has to deal with  
must be taken up at a moment's no-  
tice—be examined, tested, and dis-  
missed, at once—and thus his mind  
is ever kept occupied with the mental  
necessity of the world's passing hour.

**ASTRONOMICAL PHENOMENA.**—Soon  
after the Copernican system of As-  
tronomy began to be generally un-  
derstood, an old Connecticut farmer  
went to his parson with the follow-  
ing inquiry:

"Dr. T., do you believe in the new  
story they tell about the earth mov-  
ing around the sun?"

"Yes, certainly."

"Do you think it is according to  
the scriptures? If it is true, how  
could Joshua command the sun to  
stand still?"

"Umph!" quoth the Dr. scatch-  
ing his head, "Joshua commanded  
the sun to stand still, did he not?"

"Yes."

"Well, it stood still, did it not?"

"Yes."

"Very well. Did you ever hear  
that he set it a-going again?"

## PROCLAMATION!!!

The Governor of the State of California, to all to whom these presents may come: Greeting:

An compliance with the long established and appropriate custom of our fathers, as well as in accordance with his own feelings, the undersigned, Governor of the State of California, hereby recommends that Saturday, the thirtieth day of November, one thousand eight hundred and fifty, be set apart and observed by the people of California, as a day of solemn thanksgiving to the Supreme Ruler of the Universe, for the unnumbered blessings bestowed by Him upon our young State and people; and especially for our admission into the happy family of States.

Given under my hand, at the Pueblo de San Jose, the fourth day of November, in the year of our Lord, one thousand eight hundred and fifty, and of the Independence of the United States, the seventy-fifth.

PETER H. BURNETT.

THE EXTRA SESSION.—Our evening cotemporary, referring to our remarks in yesterday morning's issue, in regard to the civil fund and our expressed doubts touching its appropriation by Congress for California, remarks:

"If, however, the fears of our neighbor shall be realized, we shall then be most decidedly in favor of a call for an extra session of the old Legislature, for the one specific purpose of passing a bill to authorize a loan within the purview of the constitution.

"We have no doubt that a loan to an amount sufficient to put the State in a condition of perfect pecuniary independence, taken on long usance, and at the usual rates of interest on the shores of the Pacific, could be easily negotiated; for no State has ever come into the Union with abilities to offer more satisfactory guarantees than California. That she will be able to redeem all the credits she will need to ask, is as certain as that her destiny is to be made a prosperous one, by her illimitable mineral, agricultural and commercial resources, and by the indomitable energy of her rapidly augmenting population. Our belief is that the loan would be immediately taken by American capitalists as a permanent investment."

PLANK ROAD TO THE MISSION DOLORES.—We are unable to make room for the ordinance which passed both Boards giving to Mr. Charles J. Wilson the right to construct a plank road to the Mission Dolores. It provides for a track twenty feet in width, to be substantially built, and requires its completion within a period of six months. We are decidedly in favor of the speedy construction of a plank road, but do not approve the prohibition against other streets being planked, either by private enterprise, or by the city. Seven years is a long period to secure to any one so valuable a monopoly; for in that time a city of a hundred thousand people will have grown up, giving an immense travel, and at the rates of toll prescribed, draw several hundreds of thousands of dollars annually from the pockets of the people. We think the period too long, and the tolls too high for a road of only three miles in length.

FORFEITED WATER LOTS.—The following are the numbers of such water lots as were sold at the auction of city property the 3d of January last. By the express terms of the sale, and the mortgages on them, they are now declared forfeited, the several payments due on the third day of October last, not having been made:

Nos. 228, 239, 323, 324, 325, 404, 406, 415, 503, 504, 512, 548, 549, 550, 570, 597, 636, 660, 665, 714, 725, 727, 732, 735, 736, 761, 764, 64.

The value of these lots, which have now reverted to the city, will serve to augment the assets of the treasury very considerably.

## THE NEW JUDGE.

D. O. Shattuck has been appointed Chief Justice of the Superior Court of San Francisco, vice P. A. Morse, resigned. Esquire Shattuck will make an able and efficient judicial officer, and we have no doubt that his eminent legal services will be of much advantage to the courts of our city. The proposition to abolish the Superior Court, which we hope to see carried into effect, need not deprive the community of the ability which Judge Shattuck will bring to the bench. The same service can be rendered by him in another court which we hope to see created, and which shall not prove itself to be a burden to the tax payers. It was shown on Monday evening at the meeting of the Board of Aldermen, that this Court had cost \$66,000 per annum. The idea of taxing the whole community to this enormous amount to enable a few merchants to carry on litigation at a cheap rate, we are sure never entered into any honest man's brain before. What possible benefit the city has hitherto derived from this source, we have yet to learn. In it the Mayor has been mulcted for discharging his appropriate duties as a public officer; and from it injunctions have issued to enable foreigners to drive piles in the harbor to the detriment of everybody but themselves. We have more to say on this subject soon.

BRUTAL AFFRAY.—A murderous affray occurred in the Verandah gambling saloon between two and three o'clock yesterday morning. A man called Judge Jones, got into a dispute with one Jack Smith, when the former drew a pistol and fired, the ball entering the left side of Smith, inflicting a serious wound, but which will not, however, prove mortal. Jones was beaten about the head and face with a pistol. A chance shot wounded a man named Reuben Ryn den in the leg. The whole was a disgraceful brawl, and the punishment, although rather summary and severe, is perhaps no more than just all round. This is the second man that Jones has disposed of in a similar way.

CHOLERA SPECIFICS.—Handbills may be found on almost every post, fence and building, advertising some never-failing "cholera compound," warranted, "no cure no pay." This is all well enough for men who are willing to take the alternative, but usually the quick gets his money, and if the patient dies, as is more than likely to be the case, the fee is not returned. We have nothing to say in regard to the quack nostrums which may be vended for cholera purposes, but our advice is, to employ an experienced and careful physician at the earliest moment, without resorting to the bottles of liquids and apothecary stuff that may be recommended by well-meaning though misguided friends.

THANKSGIVING DAY.—By a Proclamation in to-day's paper, it will be seen that Gov. Burnett has appointed Saturday, the 30th inst., as a day of Fasting and Prayer, in accordance with the customary usages of the older States. This course is exceedingly well-timed and appropriate, at a season when the pestilence is walking abroad at noon day, and especially in view of the thousand pecuniary and social blessings vouchsafed to those who have sought this far-off land. While friends and relatives at home are returning thanks to the Supreme Ruler of the Universe, let us join our orisons with theirs.

CLEANSING THE CITY.—The City Council on Monday evening appropriated \$5,000 for the purpose of cleansing the city. This is a judicious and much needed remedy against disease. The Board could not have appropriated a like sum for a better purpose, nor one that will be productive of more real benefit to the city. What is required now is, its careful yet prompt expenditure, and we hope to see the pest holes of the city, give place to cleanliness without delay. The amount named will go far towards accomplishing the desired object effectually.

FILTH.—The attention of the authorities is especially called to the filth which is to be found along all our wharves. Nearly every dock is made the dumping ground for decayed animal and vegetable matter, and this fact alone is sufficient to account for the cause of the large number of cases of cholera which have originated in the vicinity of the water. Some particular locality should be selected for the deposit of filth and garbage, away from the densely populated portions of the city. There are vacant spots enough around the city, where such deposits would be unobjectionable.

FOR OREGON.—Those desirous of visiting Oregon, either for business or to avail themselves of the chance of securing a section of land under the act of Congress, are referred to the advertisement of Brown & Co., who will dispatch a fast-sailing schooner in about a week.

George W. Williams will please send his address to this office.

## COMMON COUNCIL.

BOARD OF ALD. MEN, Nov. 5.—Present, Ald. Greene, Leonard, Middleton, Mott, Selover and Stewart. Ald. Greene in the chair.

A communication was received from the Loan Commissioners, stating that they should issue proposals for the loan, as soon as deeds were placed in their hands, and recommending the amendment of the Ordinance creating them, by making the bonds payable to bearer, and in convenient sums.

A message from the Mayor was received, approving of the Ordinance creating a Board of Health.

A petition of J. Cochrane for balance of pay for constructing a reservoir, referred to Com. on Finance. Adjourned.

BOARD OF ASSISTANTS.—Present, Ald. Bartol in the Chair. Messrs. Sharron, Grant, Corbitt, Van Ness, Morris.

A message was received from the Mayor approving the Ordinance for creating a Board of Health.

This body was then invited by the Board of Aldermen to sit in joint ballot with them for the election of a Board of Health.

JOINT BALLOT.—The Council on joint ballot elected Doctors Dimon, Harris, and Gibbons, as Physicians to the Board of Health; Aldermen Greene and Bartol, presidents of the respective Boards, on the part of the Council, and Messrs. J. D. Stevenson, John P. Haff, and H. W. Carpenter.

A motion that Dr. Rogers be elected an honorary member, was withdrawn.

Three gentlemen called upon us last evening, stating that they had just returned from the cholera hospital, and wished to announce the death of a friend, which is done under our obituary head. They stated at the same time, that during their visit at the hospital, three individuals had died of cholera, who had no attention, no nursing, and no physician present; that no nurse had been in the room since three o'clock yesterday; that the patients lay about the room on mattresses, seemingly uncared for, and unprovided with any of the necessary comforts.

Now if these facts be established, it displays the most cruel neglect that has ever been our duty to notice. Where lies the blame?—with the city, the nurses employed, or the physician? If this statement be true, it casts a disgrace upon the commercial emporium of the Pacific, that can only be wiped out by prompt provision for the afflicted. The lot of all who have left home and friends is hard enough, at best, if sick, but when cruelty be added to misfortune, it makes the heart sick and man's courage fail. If these things be so, the Board of Health elected last evening, should make it their first official duty this morning to apply the remedy. We want no refined slaughter-houses.

INHUMANITY.—On the morning of the burning of the City Hospital, the sick were removed to the Waverly House, on Pacific street, which had been kindly tendered for that purpose. Scarcely were they located, before a petition was put in circulation for their removal to some other locality. This displayed about as cool inhumanity as thrusting a dead body out of doors, to rest upon the Plaza, because the unfortunate individual happened to die of cholera. Fear will induce persons to do a great many foolish things, and this petition was of that character.

A SMART CARRIER.—We are in the habit of receiving the copies of our evening cotemporary between dark and nine o'clock, P. M. Walking abroad yesterday afternoon about three o'clock, we saw a lad with a whole armful of the Pic, crying out: "Here they go—only one picayune apiece." Surprised, and looking up at the sun to be satisfied that it was not a morning paper, we asked him what he had; and why he was so late in reaching our office not half a square from him. "Can't help it," said he, and we thought it must be so, as he passed on after civilly giving us one of his papers.

Next Presidency.—Some of the Democratic papers in the Atlantic States, are bringing before the public the name of Gen. Houston, as a suitable candidate for the Presidency. Houston, Cass, and Buchanan, are perhaps the names from which the Democratic party will select a candidate.

THE UNION HOTEL.—By an advertisement in another column it will be seen that this splendid new hotel will be open for the reception of boarders and others, on Thursday of this week. Its internal arrangements have only to be seen to meet with universal approbation.

PRIME VEGETABLES.—The general vegetable depot of Homer & Co., on Jackson street, below Battery, will always be found well supplied with a choice variety for the table. Families and hotel keepers should govern themselves accordingly in making their purchases.

## LAND REGULATIONS IN OREGON.

EDITORS OF PACIFIC NEWS.—As many inquiries have been made at our office in regard to the land laws in force in Oregon Territory, and especially as to that giving a square mile to those settlers who take possession before the 1st of December next, we have thought it advisable to state for the public benefit, the result of our own investigations on the subject.

In the years 1813 and 1814, while the question of possession in Oregon was pending between our Government and that of Great Britain, Congress passed a joint resolution offering to American settlers who might be willing to move out to that distant region, large grants of land. The Hudson Bay Company, previous to that time, held almost sole possession of this territory, and it was to counter-balance this advantage on the part of England that our Government saw fit to hold out extraordinary inducements to American pioneers. Nothing more than a resolution to that effect could have been passed at that time, as the title of the United States was not as yet established, nor was the Indian title extinguished; but by that resolution the faith of the Government was pledged to grant 640 acres of land to each male white American citizen, (or foreigner who should have declared his intentions to become a citizen of the United States) who should settle immediately upon Oregon soil—so soon as the necessary legal steps could be taken to complete the title. The effect of this resolution was at once perceptible, and a large emigration at once set out for the fine lands in the neighborhood of the Willamette river.

Arrived on the ground, and finding it necessary in the absence of United States laws to organize some government of their own, a Provisional Government was established until such time as Congress should provide a Governor for the territory. Among the first acts of this Provisional Government, was the enactment of a law giving to each settler the amount of land offered by Congress in the resolution above referred to, viz: 640 acres, subject however to the action of Congress in the premises, and the settlers accordingly located themselves on farms of that extent, wherever they saw fit. Congress afterwards established a Territorial Government for Oregon, and in so doing approved all the acts of the Provisional Government, including their land regulations. The Assembly afterwards reconsidered the law regarding claims, and amended it so that no more than two persons should claim land in partnership, and also ordaining that all bands should be in the direction of the cardinal points, excepting where natural limits rendered it impossible. Under the law as thus amended, the greater part of all the claims now holden in Oregon have been taken possession of; nor has any other title ever existed to lands in that territory. Such towns as have been laid out and settled, as Oregon City, Portland, Pacific City and Cascade City, have been managed in the same way—the inhabitants receiving only a quit claim deed from the original claimants.

The law as it now stands requires the claimant to survey his claim and record it at the office of the County Clerk, or of the U. S. District Court, within two months; also to improve it to the extent of fifty dollars, either in buildings or in cultivation, every six months. If the land be abandoned for more than six months, any one else can take possession. Sales are made by quit claim deeds at together, as of course no title in fee simple can be given until the General Government has surveyed the land. Sales are recorded at the County Office by entering an abandonment of the claim in the name of the original occupant, and a new record of it in that of the purchaser. It is hardly necessary to add, however, that in most cases the records are anything but descriptive of the lands claimed—the Oregonian generally running his lines by the sun, and measuring them by the time it takes to travel over them. Frequent lawsuits have been the consequence, in which case a surveyor has been called in to act as witness; but as a general thing, scientific services have been dispensed with.

A different state of things, however, is now dawning on the neglected affairs of our Oregon neighbors.—Congress has at last redeemed its pledge given in the resolution above mentioned, by appointing a Surveyor General of the public lands in Oregon, and providing for a donation of said lands to settlers. We have not seen the entire bill as yet, but from what we can gather from the extracts and debates in the Congressional Globe, its provisions are as follows: All who shall have taken possession in accordance with the Territorial law, previous to the 1st Dec., 1850, are to be confirmed in their titles by letters patent for 640 acres, to be granted on the survey of the lands by the U. S. Surveyor. Those single men who settle between Dec. 1st 1850 and Dec. 1st 1855, are to have each a quarter section, or 160 acres granted them; and to married men, or to those who get married within a year

after settling, a half section, or 320 acres, is to be given, the extra half of which is to be held by the wife in her own right. No person is allowed to hold more than one claim either by purchase or by settlement.

The advantages thus gained to the agricultural class, are greater in Oregon than in any other part of the United States, or of the world. Speculation, monopoly and manorial rents, so oppressive to the laboring class in other countries, are here for ever impossible. No man can be so poor as to want a farm, so long as Government has it to give; and those who look forward to a residence in this country, cannot do better than avail themselves of the liberal offer thus held out to them. Nature has done wonders for Oregon, both as respects agriculture, manufactures and minerals; and where an enlightened legislation has so nobly seconded her efforts, naught but the application of intelligent labor is necessary to make it the garden of the world.

WINCHESTER, PAINE &amp; CO.

## CAN YOU FLY FROM GOD?

We cut the following, with the caption, from the "Picayune" of last evening. It is written with a very just view to our present wants in this city, and we cordially commend it to the attention of all our readers:

"In every bosom are the hidden elements, not only of veneration, but of those feelings which prompt us to relieve our fellow men, and to put our trust in God. The external man does not always show this by his actions. He yields to temptation, and in the pursuit of those ends which the pride and artificial distinctions of society seem to point out to him as the purpose of his action in this world, he is apt to forget the relations he sustains to his Maker, and the dependent position he occupies. But when affliction comes—when adversity presses upon him, and when the pestilence which 'walketh in darkness,' cuts down his friends and neighbors, on the right hand and on the left, it is then that the objects which engross his time and thoughts, are considered in their true light, and as their importance diminishes, he is thrown back upon himself, and communing with his own heart, feels and realizes his dependence upon a Power above him.

There is, perhaps, no time in life when that dependence upon the overruling power of Providence is so forcibly realized as upon a time like the present. We have in our midst that scourge with which God, in the fulfillment of his purposes, has seen fit to afflict the human family. The friend you conversed with but a few days, perhaps a few hours ago, is now resting in the quiet tomb, and the tenure of your own life is equally uncertain.

To be informed of this fact need not alarm you, for your life has always been uncertain, and you may regard it as a succession of miracles that you have thus far been spared. The uncertainty of life is confined to no one people or clime, and when danger presses upon you, all that can be done is—what should always be done—"trust in God," and remember that you cannot fly from him. Try to live according to the laws of your being, which he has established, and trust in his mercy for your health and preservation.

We have been led to these remarks, as peculiarly appropriate to our present position as a people. The person who would attempt to escape an attack of cholera by leaving the city, is just as likely to fall its victim as though he remained.

It evinces that want of composure which above all things acts as a predisposing cause of disease, and the panic-struck mind is never safe. And even if an escape from the city were made, where would you go? The cholera is making its way through every portion of the country, and you may be stricken down afar from that medical aid of which you might derive the benefit here. We will not extend our remarks further; but conclude with advice which costs neither ourselves nor our readers anything, but which we hope they may take under serious consideration.

1. Wear flannel next the skin.
2. Take your meals at appointed hours, and you had better eat even four light meals per day than two, at which you indulge in over eating. Let your supper be light.
3. Be careful to keep your feet warm and dry—sleep warm.
4. Especially avoid the night air.
5. Every day, without fail, take a bath, or let water touch every part of your person, and take a good scrub with a coarse towel at the time.
6. Always bear in mind that God rules the world, and that your life is as much at his disposal as that of the most lonely and miserable being in existence, and from this, learn to put your trust in him, and maintain that calmness and composure of mind which your dependence upon your Creator is calculated to inspire."

OUR MARINE.—Large numbers of vessels are still leaving our ports, while but few arrive. There were no arrivals on Monday. The period of exile with many is about over.

## FROM SACRAMENTO.

By Last Night's Boat.

Hawley & Co. furnished us with Sacramento papers.

By the record below it will be seen that there is quite a falling off in the bill of mortality of Sacramento—a fact exceedingly gratifying. The number of new cases on Monday, was comparatively small.

The cholera rages in the up river towns above Sacramento.

## YUBA AND FEATHER RIVER.

Editor of Pacific News:

I have just noticed an article in the Sacramento Transcript, under date of Nov. 4, under the caption of *Humbag*, in which the editor speaks of the character of the mining district of the Yuba and Feather Rivers. I have spent a year in the mines, and have explored the country along the Yuba and Feather Rivers, the Gold Lake mountains, and know the range between the Lawson and the Yuba, as well perhaps as any man. That whole range presents a highly auriferous character, and from the developments of the present season, enough is known to prove it a rich gold country. There is no humbug, so far as the existence of gold is concerned, but then the usual difficulties exist in obtaining it as elsewhere. High broken ridges, deep gulches, difficult trails, hard toils, and a short season for working, must be encountered so far in the mountains; but active, steady, and persevering labor, has more generally rewarded the miner than in any other region where I have been, for the time he was engaged. After passing the granite range of Feather river and its branches, the strata is slate, often combined with quartz, which sometimes seem to blend with each other, like the delicate shading of a picture, and in this range the gold is now found in the greatest quantities, and it has been found in large deposits in many instances, although it is true, that like all other diggings, many have failed. The experiment of damming the rivers has rendered one fact generally conclusive, that the bed of wide streams is not the place to look for gold, and this I ascertained at a cost of \$2000. At the conclusion of the experiment on the Feather river, I visited the country above, where I remained until driven out by the snow.

Another fact has recently been disclosed along Feather river. Shafts have been sunk in gulches, and in depressions of the hills, sometimes to the depth of twenty feet, to the base rock, with much success, and many who were engaged on the river have abandoned it, and are doing well in this way. The country north of Feather river is now proving as rich as any I know of, and I have seen some beautiful specimens which were taken from a bar on Butte Creek, about fifteen miles above Neal's Ranch. Many are preparing to winter there. On Nelson's Creek, one hundred miles above Marysville, and on the North Fork and branches of Feather river, where the snow falls to the depth of twenty to thirty feet, about four hundred men have established winter quarters, so that they may be on the ground before they could get up from the valley in the spring.

A feasible mountain road is opened to the higher diggings from Marysville, and to get access to the new country on the north of the Feather, the gold hunter would cross either at Yuba City, or at Burch's, and pass through Hamilton, the county seat of Butte, from which a good road is open in the mountains as far as diggings are yet found, and where many are preparing to spend the winter. I am in possession of much knowledge of that part of the country, which will be freely imparted to any desiring information.

Yours,  
AN OLD MINER.

We were assured by Mr. W. F. McLean at an early hour yesterday morning, that he was not dead, and that his name did not belong on the list of Mr. Gray, the Sexton. It may have been another gentleman of the same name; or a mistake. Our neighbors were "polite" overmuch in their allusions to this wonderful story. Mr. Jack Smith was put through very quietly by them; but they had need to make great ado about a man who was not hurt at all.

AUCTION SALES TO-DAY.—Starr, Minturn & Co., sell a desirable lot of provisions, lumber, &c.

James B. Huie & Co., have up a very large lot of prime groceries, miner's stores, &c.

No weather could be more de-  
lightful than what we have at pre-  
sent. The nights are clear and cold.  
A frost visited us night before last.  
The snows on the mountain heights  
are accumulating every day.

#### DEED

On the 29th ult. at the tent house of Abel  
Endes, junction of Marysville and Sacra-  
mento roads leading to Nevada City, Charles  
Violet, of Alexandria, D. C. He had no  
effects of any amount, except the usual  
blankets, and a bible. He often spoke  
while sick, of Capt. Montgomery D. Cole,  
and Capt. John Brown, of Nevada City. He  
was a printer by trade, and his disease was  
disentery.

In this city, Nov. 5th, John Lupton, of  
cholera, from New York, aged 25.

GRAND LODGE of the State of California.  
In consequence of the prevalence  
of an epidemic at Sacramento City, and  
upon the application of several Lodges under  
the jurisdiction of the Grand Lodge (in  
consequence thereof) for a postponement of  
the semi-annual meeting from the first to  
the fourth Tuesday in November, I have  
deemed it prudent and proper to direct the  
said semi-annual meeting to be adjourned  
accordingly. I therefore give notice that  
the Grand Lodge of the State of California  
will meet for the transaction of business at  
Sacramento City on the fourth Tuesday in  
November inst., at which time officers and  
members thereof, and the Delegates from  
the several Lodges under its jurisdiction,  
will assemble.

UNION HOTEL.—Under the man-  
agement of ISAAC M. HALL.—This es-  
tablishment, situated on Portsmouth  
Square, San Francisco, State of California,  
will be opened for the reception of guests  
on THURSDAY, the 7th of November, inst.,  
under the management of Isaac M. Hall.  
The building has been erected with the  
best materials, built of brick, entirely  
new, fire-proof, five stories high, front-  
ing on Portsmouth Square, and extend-  
ing back 100 feet on Merchants street.  
There are 100 rooms, all finished in the  
most substantial manner, bathed and plas-  
tered, and hard finished walls. Each room  
is furnished with a stove and other bed-  
room furniture, complete; bells are fitted  
up, communicating with the office from each  
room. The dining room will accommodate  
150 persons, and the public may safely con-  
fide in the well known talent of Mr. Hall to  
make this department one of the most invit-  
ing of the house; all the delicacies of the  
season will be found on the table, and the  
wines the best the market affords. The  
proprietors confidently maintain the hope  
that this enterprise, involving at least  
\$250,000, will meet its due appreciation by  
the public, and that the effort on our part  
to present a hotel where every comfort at-  
tended in hotels in the Atlantic States may  
be found, will meet the reward of public  
patronage.

DON'T BE AFRAID OF THE  
CHOLERA!—Reader, call ye with all  
haste at the bar of Thos. Maguire's Saloon,  
(Parker House), and purchase one bottle of  
Dr. R. S. N. ANKER'S (of No. 10 Park  
Place, New York) celebrated and wonder-  
ful specific for the certain cure of the CHOL-  
ERA, DIARRHOEA and DYSENTERY, and  
you are safe from the otherwise fatal  
effects of an attack of the Cholera. Don't  
say this is only a humbug patent medicine,  
and neglect to have yourself a bottle of it.  
It is just what it is asserted to be—the  
best and most certain medicine for the cure  
of the above epidemics that was ever dis-  
covered, and has never been known to fail  
in its mission of humanity in the saving of  
life, when administered according to direc-  
tions on the bottle. Thousands of lives  
were saved by it during the prevalence of  
the cholera in the city of New York in 1849,  
and there are many now in this city, and to  
whom reference will be given on applica-  
tion to the agent, and who owe their own  
lives to its efficacy. The agent has this  
medicine on sale at the above place, and can  
produce, on request, Dr. Anderson's  
certificate of agency. Price \$50 per bottle.

M. J. Smith, Agent.
